RE: Site Inspection, Goneaway Mine, Butt Mining Company, M/037/009, San Juan County, Utah

Date of Inspection: March 21, 1991,
Time of Inspection: 5:30 - 6:00 p.m.
Conditions: Cold, wet, muddy
Attendees: Tony Gallegos and Holland Shepherd, DOGM

An inspection was made of this site to evaluate any revegetation success. The site was reclaimed in November of 1988.

Very little vegetation was evident on the site. The soils are poor and drought has been severe in the area over the last two years. No serious erosion problems were evident during our inspection.

This site has been reclaimed and released. So any observations involving the reclamation success is informational only.
